

Internal mouldable bath cushions and supports are a simple and cost effective way to transform the bathing experience for disabled users and their carers.

One of the most complete cushion solutions available on the market is the **vacuum body support cushion** by Astor-Bannerman, which is made from a waterproof vinyl material filled with small polystyrene beads and fit inside any standard or assisted bath.

These body support cushions are secured to the bath with strong suckers and have a hand vacuum pump attached which, once the bather is in position, is used to remove the air creating a firm, flexible and comfortable supportive base.

When used in conjunction with Astor-Bannerman internal knee supports, this bathing cushion offers optimum stability which is especially good for some conditions and disabilities where precise positioning is crucial.

As innovators within the paediatric bathing, moving and handling market, we pride ourselves on being able to offer product flexibility wherever possible and one of our most recent developments is to our adult and child body support bathing cushions which measure 1200mm and 1800mm in length (BSW120 and BSW180).

Unlike many other UK disability bathing cushion manufacturers, we make every single full body vacuum support cushion with 2 layers of waterproof vinyl material instead of the standard 1 meaning they are extremely robust when used correctly. Consumer feedback has allowed us to develop this product so it is now one of the best quality disability bathing cushions on the market today!

We provide a warranty document and user guide with every cushion we deliver, detailing comprehensive instructions to follow in order to maintain the cushion lifespan.

Strong suckers and twin skin vinyl material

Small handheld pump and valve to extract air

Integrated side 'wings' for added comfort

Holes in the cushion help water circulation (shown with optional knee block)

### STANDARD FEATURES

- 2 layers of waterproof vinyl material
- Secure and flexible suckers
- Vacuum hand pump for precise positioning
- Perforations to allow water flow
- Compatible with all baths
- Integrated head support area
- Integrated side wings for added support
- Easy to clean
- Easy to use

### OPTIONAL EXTRAS

- Paediatric size: 1200mm long (BSW120)
- Adult size: 1800mm long (BSW180)
- Range of head support cushions also available

**Model:** Body Support Cushion

**Product Code/s:** 00.071.00.0120 (BSW120: Paediatric)  
00.071.00.0180 (BSW180: Adult)

**Dimensions:** 1200mm (L) (Paediatric)  
1800mm (L) (Adult)

**Features:**

				
Waterproof Vinyl Material	Twin Skin Material	Easy to Clean & Use	Secure & Flexible	Water Flow Perforations

**Options:**

		
Paediatric Size	Adult Size	More Cushions Available
