

**Product Specification:**

**Motion G**  
 Reclining Bath

**Highlights:**

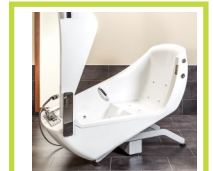

- Electrical height and reclining adjustment
- Extra large door opening and low entry height of 49cm: easy self entry
- Large foot area to allow pre-filling
- Deluxe and modern design
- Interior moulded seat for extra comfort and support

The Motion G reclining bath is an iconic bath offering the very latest style combined with a revolutionary approach to bathing. Our specialist design team has worked very closely with professionals in the care and therapy sector to combine a contemporary appearance with practical performance.

Despite its advanced mechanism it takes just one carer to operate the Motion, easily adjusting the height and tilt of the bath to allow easy access for the bather. The side door gives a large aperture making access easier for wheelchair users, self-bathers or to be used in combination with a hoist. Space under the bath also allows hoists or wheelchairs to be positioned very close to the bath for a smoother transfer.

The large footwell can be filled prior to entry to allow a bather to have enough water to be immersed as soon as the bath is tilted back. The autofill mode is an additional aid to the carer to allow attention to be given else where whilst the bath is filling.

The Motion G comes with a Showersafe gantry system with a TMV3 temperature control and back-flow protection to fluid category 5 level.

**STANDARD FEATURES**

- SWL 210kg/33st
- Height and tilt adjustable (mains electric)
- 98 litre footwell
- Integral grooved seat
- Bath filler tap
- Two stage autofill—delivers up to 70l/min
- WRAS approved Showersafe gantry system with TMV3 temperature control and backflow protection to fluid category 5 level
- Taps with built in TMV3 temperature regulation
- 3 Year warranty (Terms and conditions apply)

**OPTIONAL EXTRAS**

- Air spa
- Integrated Bluetooth music/sound system
- LED colour changing light system
- Battery Backup Pack
- Range of service & warranty packages
