

Product Specification:

Multicare XXL

Showering and Changing Trolley

Highlights:

- Bariatric capacity up to 265kg
- Trendelenburg and reverse Trendelenburg tilt feature
- Eight double castors (4 lockable) for independent suspension
- Flexible convenient waste pipe
- Fold away guards and mattress extension

The mobile **Multicare XXL shower, changing and treatment trolley** has a **capacity of up to 265kg and generous dimensions of 2040mm x 990mm, catering for bariatric care.** It is not only a great form of transportation, but also provides a safe, secure and waterproof platform for treatment and care. Its height can be adjusted by an electronic handset control or by a manual hydraulic foot pedal, as can its Trendelenburg positioning.

Dual rocking-castor suspension on the Multicare trolley gives a smooth ride, even over difficult surfaces, and can be locked to secure the trolley in a location.

The waterproof stretcher plate combined with powder coated stainless steel frame construction provides years more life than comparable mild steel trolleys - especially when used in wet or humid environments. The Multicare trolley also comes with 4 folding and self-locking guards, a 10mm laminated and waterproof platform, extendable head rail, drain hole with flexible waste pipe, and disinfectable PVC shower mat, making this an excellent option for us in all wet and dry environments.

STANDARD FEATURES
