

KwickScreen Wall Mounted Privacy Screen

Highlights:

- Printable both sides with an image of your choice
- Engineered with a single touch point so very simple to pull into place
- Patented system that holds the screen in place and allows you to retract it effortlessly
- Easy to clean with standard cleaning products
- Designed alongside microbiologists for ultimate infection control
- No track or rails for entanglement
- Ideal for public and hygienic spaces
- Water resistant and corrosion free
- Can be retracted if the screen image is off putting for people with sensory issues (unlike a wall mural)

KwickScreen Wall Mounted Privacy Screen

Overview:

Privacy screens perform a vital function in a range of settings, providing privacy for and maintaining the dignity of people who need carers or family members to be present while certain activities are undertaken (such as using the toilet). However, historically these vital pieces of equipment have been functional rather than innovative or attractive.

In contrast, KwickScreen's privacy screen has been designed to be both durable, functional and attractive, with a patented system making it flexible and fully retractable. It is also customisable, and can be printed with a choice of artwork from a catalogue of images, or on a bespoke basis with artwork of the customer's choice. By personalising the privacy screen, the room can be transformed in many ways:

- by including a strong tie with the venue making the room feel an integral part of the building and not an add on (eg an image of a key attraction within a museum)
- by using an image of a local landmark creating a familiar and nostalgic association creating a fun or entertaining image to enlighten the room
- by including a practical image / info graphic to communicate a key piece of information or give added value to the room eg a wheelchair friendly route nearby

In addition, KwickScreens can be used to divide a larger space or room into mini areas for smaller groups to use. This is particularly relevant within SEND and Mainstream Schools, Care Homes and Training Facilities, but can be a very practical solution to create space dividers in a multitude of other environments. The ability to print the screen allows each area to be themed giving the option to create reminiscence areas within Care Homes; focused training areas replicating a particular environment; or a role play area in a school eg an airport, shop, hospital or garden.

Components:

1. Patented C-Tube technology
2. Adjustable brackets to suit different uses
3. Aluminium spine
4. Powder coated steel frame
5. Medical grade castors
6. Single touch point handle

KwickScreen Wall Mounted Privacy Screen

Model Name:	KwickScreen Wall Mounted Privacy Screen
Product Description	Printed wall mounted retractable privacy screen
Product Code:	20.300.20.0029 3250 mm (l) x 1900 mm (h)
Materials	50% Steel; 20% Aluminium; 16% Polyester; 4% Glass Fibre; 4% uPVC (95%+ recyclable)
Screen Height	1900 mm
Screen Width	2000 mm
Fire Regulations:	All our products meet international fire regulations EU & UK: EN13501-1: 2018 - Euroclass B - s1 - d0 US: ASTM E 84 - Class A

Application:

Changing
Places

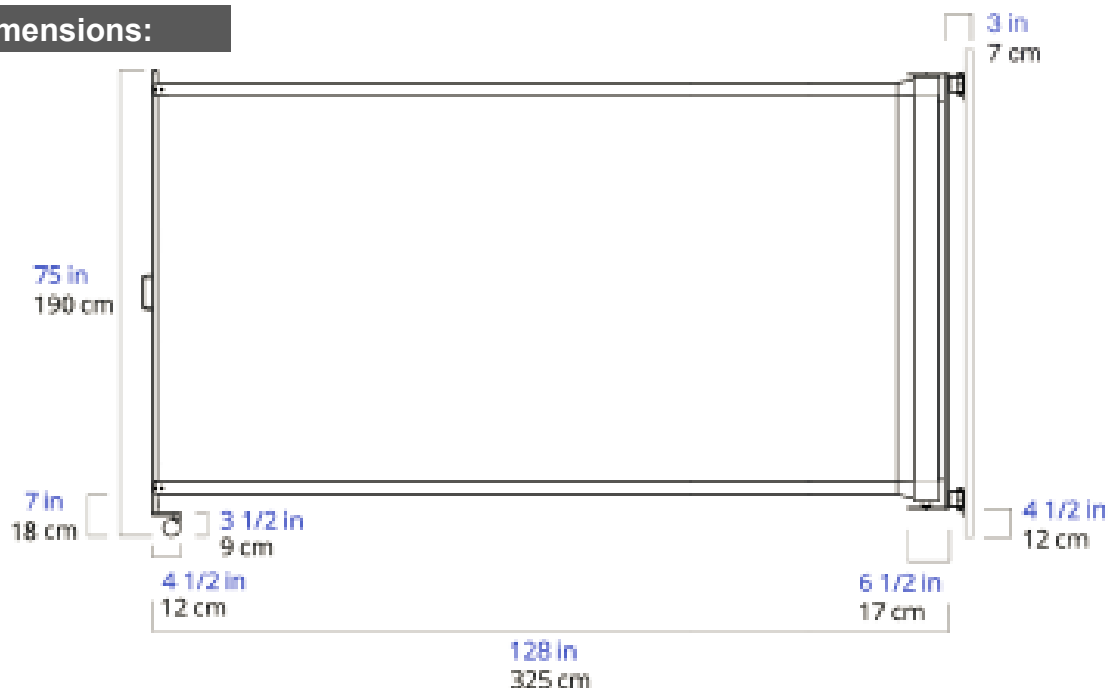

Public
Venues

Schools &
Universities

Care
Homes

All screens are printed both sides with an image of your choice (12mb + or vector file)

Kwickscreen Air Wall Mounted Privacy Screen

Care:

Cleaning your KwickScreen

KwickScreens have been designed in line with infection control guidelines. All our screens are quick and easy to clean using standard hospital cleaning agents.

Everyday cleaning

You can clean your screen using most healthcare cleaning solutions, including:

- Quaternary
- Bleach solutions
- Disinfectant
- Virucidal disinfectants
- Hypochlorite at 1,000 — 10,000 ppm or 60% alcohol solution
- UV light
- Hydrogen peroxide

Deep cleaning

To deep clean, fully extend the screen and clean inside the body. When cleaning your KwickScreen do not use:

- Any sharp instruments or razor blades to scrape the surface
- Wax polishes
- Products with an abrasive surface such as steel wool
- Greases or oils

Stubborn stains

If normal cleaning does not remove all the stains, the following cleaning agents may be used at room temperature with care:

- Methyl butyl alcohol
- Naptha VM&P
- Ethyl alcohol
- Isopropyl alcohol

WARNING!

Care should be taken with printed panels when using alcohol based agents.
